Pure water  
in simplicity

Swan

Flamingo

Swan  
birth of  
an innovative  
concept

Expanding our existing range of customised softeners, PWG have now developed a new stylish innovative range of softeners. The aim is to have a simple, stylish and scalable range based on the most reputable controllers on the market to satisfy our customer needs.

Flamingo  
the best combination between  
stylishness and innovation

Flamingo A

Flamingo F

Flamingo C

- A modern and rigorous style based on a good combination of lines and smooth curves outlined by different surface finishing
- A cabinet cover that allows using a large number of valves
- A specific window to see major electronic displays
- A cover that is strongly fixed on the bottom part of cabinet
- A cabinet that allows using a large range of pressure tanks (from 7x17 to 10x35)
- A solid cabinet cover that will not be damaged during transportation (2.7 mm thickness)
- The ABS cover and PE cabinet are fully recyclable reflecting our environment friendly attitude

purity,  
simplicity,  
serenity

SXT

CI

760/762

- A natural upscale from Swan concept
- An innovative and original design that puts electronic display at the heart of softener
- A large possibility of controllers and valves to propose you the best technology available on the market
- An exclusive design with Flamingo C
